## Absorbent Foam Dressings

# Advazorb Absorbent Foam Dressings

## High level of comfort, rated by clinicians

- Soft, conformable foam for wearable comfort
- Low friction backing prevents rucking
- Wide, contoured border for added comfort and security

Over **77%** of clinicians  
rated comfort in  
use as 4+ on a scale  
of 1-5.<sup>1</sup>

# Advazorb<sup>®</sup> Absorbent Foam Dressings

## Optimum moisture levels for wound healing

---

Excellent fluid handling to maintain moist wound healing

High fluid retention: effective under compression

'Lite' versions for low exuding wounds

# Advazorb

Absorbent Foam Dressings

## Premium dressings priced for today's budgets

---

The financial burden of wound care is well documented and there is growing pressure to do more with less

Made in the UK to high quality standards, with a high level of supporting evidence.

Priced conservatively with today's wound care budgets in mind.

## Advazorb clinical cases

### Venous leg ulcer

Treated with compression therapy, plus **Activon<sup>®</sup> Tulle** for 4 weeks.

**Advazorb<sup>®</sup> Silfix** used to ensure the wound bed was kept moist and cope with any increase in exudate caused by **Activon<sup>®</sup> Tulle** rehydrating the wound bed.

**Significant reduction in size at 4 weeks with healthy granulation tissue. Fully healed at 8 weeks.**

### Diabetic foot ulcer

Highly exuding with extensive maceration to surrounding tissue.

Dressed with **Advazorb<sup>®</sup>** non adherent foam cut to shape to ensure comfort and security.

**Significant improvement after 48 hours with surrounding skin maceration resolved. Fully healed at 3 weeks.**
